

## 4Single

HEIGHT ADJUSTABLE TABLE OR KITCHEN WORKTOP FRAME

ADJUSTS TO SUIT SITTING OR STANDING POSITIONS

AN EXTRA WORK PLACE IN A MODERN DESIGN FOR KITCHENS AND DINING ROOMS

- Height adjustable frame for worktop or tabletop available in any size up to 200x200cm.
- The frame is available with manual or electric height adjustment.
- Any worktop material is easily mounted on the adjustable frame.
- 4Single is extremely stable even at highest position.
- Height adjustment is done by help of a handle or an infrared hand control.
- A hob or sink can easily be inset into the worktop.
- 4Single is available with brake wheels and can easily be moved around a room.
- Electric version may be supplied with a safety strip.
- A frame can be made to suit the size of an existing worktop or tabletop.
- **Ideal for the whole family: big, small, young, elderly or wheelchair users.**
