Item No.
20-60214 50-70cm
20-60224 60-90cm

Several sizes to suit individuals and carers needs.

The height of the table is infinitely adjustable from 50-70cm or 60-90cm.

Vision meets the needs of all and ensures ergonomically correct working positions for people with or without disability.

The unique design with rounded corners and edges prevents bruising of the user.

Sufficient legspace for both therapist and patient.

The tilting surfaces have an integrated steel plate, which enables the use of magnets and the MagRule.

Technical data:

Measurements: 90x60cm and 120x60cm.
Height: infinitely adjustable from 50-70 or 60-90cm.

All tables are available in six colours (White, Light Grey, Dark Grey, Red, Blue and Green), with matching frames to the red, green and blue; the other colours come with aluminium frame.
